**DETAILED ACTION**

This Office action is in response to the preliminary amendment filed 12/15/2003.

Claim 1 is pending and is under examination.

***Specification***

1. The disclosure is objected to because of the following informalities: applicant is required to update the information on the allowed application 10/234,633, now USP 6,664,829.

Appropriate correction is required.

***Claim Objections***

1. Claim 1 is objected to because of the following informalities: the recitation of "capable of" in lines 2, 9, 16 and 22 is not a positive recitation. It is suggested to change "capable of" to --for--. Appropriate correction is required.

***Double Patenting***

2. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

3. Claim 1 is rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 1 of prior U.S. Patent No. 6,664,829). This is a double patenting rejection.

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
